

Dear Hiring Manager,

Recently I studied all the details given in your job posting which was posted on linkedin. From your job description, I came to understand that you need an expert backend web developer for your project. I would be highly happy to declare my candidacy for this post.

As you already know that Technical aptitude, sharp artistic talent, and productive team collaboration are all essential elements to be succeeded in software design and production . I am a highly skilled professional with more than seven years of experience developing and executing a wide variety of websites and application projects. Because of my reputed position in these work field, I am more than sure that I would be able to make a significant impact on your team as your next backend developer.

I would be happy to let you know that my background includes designing and delivering creative projects and also it includes services from concept through completion. I have a solid proficiency in using both php laravel and nodejs techniques to create web applications. Along with my ability to collaborate effectively with clients and senior management teams, I can assure you that my talents and abilities will significantly benefit you in this particular project of yours.

You can always find me on Email, Skype and Telegram if you need.

Thank you for your consideration.

Sincerely,
sajjad abdollahi
